Who are we?

- Portland Press Limited is an innovative publisher of journals, books and electronic resources in the biochemical, cellular and molecular life sciences.
- As a not-for-profit publisher, the surplus from the sale of our publications is returned to the scientific community via the activities of the Biochemical Society [http://www.biochemistry.org](http://www.biochemistry.org)
- We offer excellent value for money for institutions that need 24-hour access to the highest quality of peer-reviewed journals online.

What do we publish?

- new online open access journal, publishes all the latest research in cellular and molecular neuroscience.

**Biochemical Journal** [http://www.biochemj.org/](http://www.biochemj.org/)
- is a long-standing, core life-science journal. Published fortnightly, the *Biochemical Journal* publishes over 4500 pages of high-quality scientific information every year. Papers are carefully selected by an international editorial board to cover all aspects of biochemistry, and cell and molecular biology. In 2010 your subscription will include two extra Knowledge Environments, *BJ Metabolism* and *BJ ChemBiol* further expanding the scope and extent of the information provided in the Journal.

Impact Factor up: 4.371

- published six times a year, the journal captures the exciting science showcased at Society meetings. *Biochemical Society Symposia* is now included with a subscription to *Biochemical Society Transactions*. An essential teaching resource for undergraduate and postgraduate students.

Impact Factor: 2.979

**Clinical Science** [http://www.clinsci.org/](http://www.clinsci.org/)
- a major international journal of translational science and medicine.

Impact Factor up again: 4.187! Higher than *European Journal of Clinical Investigation*!

- Fostering global communication to advance emerging area of Biotechnology - 12 issues published per year, this journal provides essential reading for academic and commercial biotechnologists and tissue and chemical engineers.

Impact Factor: 1.288

**Biology of the Cell** [http://www.biolcell.org/](http://www.biolcell.org/)
- published monthly the journal covers publishes original research articles and reviews on all aspects of cellular and molecular biology, development and cell physiology.

Impact Factor: 3.438

**Essays in Biochemistry** [http://essays.biochemistry.org](http://essays.biochemistry.org)
- this well established book series has run for over 30 years, and has served as an extremely useful resource for those engaged in study, teaching and research in the life sciences. An online only subscription that includes access to volumes published since 1998 is also available.

Impact Factor up: 4.269
**Cell Signalling Biology** [http://www.cellsignallingbiology.org/](http://www.cellsignallingbiology.org/)
– an outstanding online reference work by Professor Sir Michael Berridge. 12 modules providing a comprehensive coverage of cell signalling processes. In 2010 will be accessible free of charge from within the BJ Signal Knowledge Environment, thanks to generous sponsorship by the Biochemical Journal.

– Bioscience Reports provides researchers with recent advances across the whole breadth of life sciences, publishing original articles and reviews on topics including biochemistry, molecular biology and cell biology. **Impact Factor: 2.525**

**NEW IN 2010**

**Cell Biology International** [http://www.cellbiolint.org](http://www.cellbiolint.org)
– *Cell Biology International* publishes easy-to-assimilate, up-to-the-minute reports of experimental findings by researchers using a wide range of the latest techniques. Promoting the aims of cell biologists world-wide.

Sign up for further information at [http://www.cellbiolint.org](http://www.cellbiolint.org)

**Cell Biology International Reports** [http://www.cellbiolintrep.org](http://www.cellbiolintrep.org)
– new online open access journal publishing easy-to-assimilate, up-to-the-minute reports of novel experimental findings by researchers using a wide range of the latest techniques. *Cell Biology International Reports* (open access, online-only) is the sister publication to *Cell Biology International* and will publish papers that the Editorial Board of *Cell Biology International* judge to make a technically sound contribution to the literature.

---

**Features available to subscribers:**

- **COUNTER Compliant** usage statistics
- Online journals are in HTML format and include multi-media adjuncts, full text searching and PDF files of all articles.
- **Animations and figures can now be downloaded into PowerPoint**
- CrossRef links to cited articles
- Reference linking to PubMed
- **Use of PDFs in course packs, e-reserves and Virtual Learning Environments (VLEs) permitted**
- EESI-View* – highly acclaimed and innovative way of viewing articles online

**Subscription Options:**

- **Journal Packages**
- **Tailor made licences** are available for academic institutions, corporate organisations, hospitals, government agencies, and local and national consortia. Email licensing@portland-services.com for further information
- Sign up to our Librarian Alerting Service at: [http://www.portlandpress.com/pp/info/default.htm](http://www.portlandpress.com/pp/info/default.htm) to receive updates on your subscriptions and new products

*Enhanced Electronic Serials Interface. Developed by Portland Press. UK Patent No: 2416468*
